Technical submittal

Products: **Purewell Variheat mk2 Pipekits - PV110c**
Project:
Customer: Date:

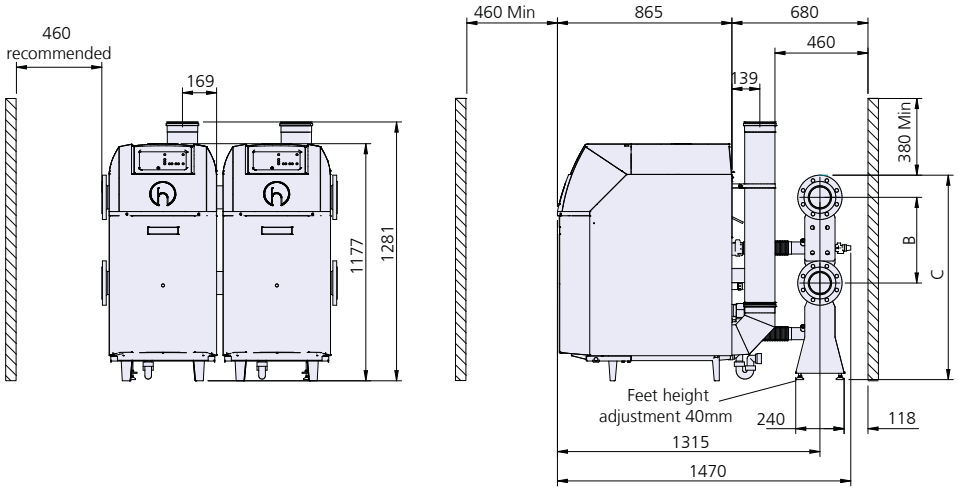

There are three distinct pipe kits available:

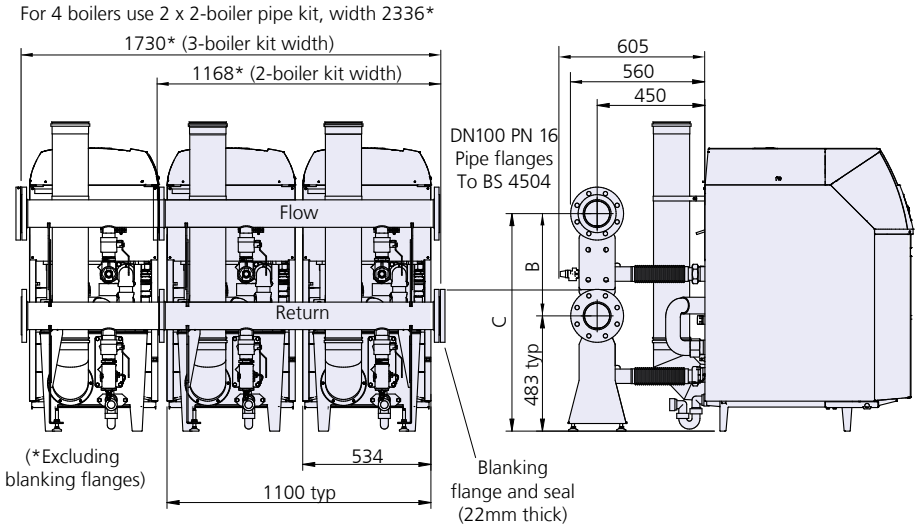

- a two-boiler pipe kit,
- a three-boiler pipe kit and
- for a four-boiler arrangement, use two 2-boiler pipe kits together.

Each flow and return pipe is a single continuous length of pipe, with flanged connections at each end, and sized for the width of two boilers or three boilers accordingly.

Pre-assembled pipe kits include:

- Isolating ball valves for water flow, return and gas inlet connection on each boiler
- Flow and return headers
- Pre-assembled flow and return pipe subassemblies between boilers and headers
- Flow line safety relief valve and ½" connection for pressure gauge
- Return line drain valve and ½" connection for expansion vessel in line with BS6644
- Blanking flanges for header ends
- Support legs

Dimensions (mm)	Ref.	PV110c
Flow / return centres	B	425
Header flow connection	C	908
Pipe flange to BS4504		DN100 (4") NB PN16
